SUMMARY

Aspiring Software developer with expertise in iOS Development, Full Stack development and Open Source contributions. Proficient in multiple programming languages and frameworks. Passionate about building scalable applications and solving real-world problems with technology.

WORK EXPERIENCE

iOS Developer Intern   **Feb 3, 2025 - Feb 28, 2025**

- Developed and optimized iOS application using SwiftUI, and UIKit, integrating CoreData/Firebase and RESTful APIs for seamless data handling.
- Enhanced app performance by implementing efficient caching, debugging issues, and refining UI/UX while following MVVM architecture and best coding practices.

SKILLS

- **Languages & Development:** Proficient in C++, C, Java(Basics), JavaScript, SQL; exposure to Python, PHP, TypeScript, Bash. Experienced with React.js, Node.js, Express.js, REST APIs, MySQL, MongoDB (Basics).
- **iOS Development:** Skilled in SwiftUI, UIKit, Storyboard, CoreData, Firebase, and MVVM architecture, with API integrations and Supabase.
- **Tools & Platforms:** Hands-on with Git, GitHub, GitLab, Xcode, VS Code, IntelliJ IDEA, and cloud services like AWS (Basics), Firebase (Basics).
- **Networking & System Design:** Knowledge of DNS, HTTP/HTTPS, TCP/IP, OS, and DBMS, with experience in project management tools like Slack & JIRA.

EDUCATION

Chitkara University   **2022-2026**
  B.E Computer Science and Engineering

Tagore Public School, Palwal   **2021-2022**
  Secondary Education

POSITIONS OF RESPONSIBILITY

Apple Student Community - Center Of Excellence Operating System Environment

- Event Organizer(Aug 2023 - Jan 2024)- Organized tech events, hackathons, and workshops to promote developer engagement.
- Content Lead(Jan 2024 - Sep 2024)- Led technical content creation, including blogs, documentation, and event reports.

Open Source Chandigarh

- Technical Team Member(Sep 2024 - Aug 2024)- Assisted in software development initiatives, coding events, and tech support.

PROJECTS

E-Commerce Website

- A fully functional online store with product browsing & checkout. (HTML, CSS, JavaScript)

Real Estate Web App

- A property buying and selling platform with user listings. (Node.js, React, MongoDB, Express)

Doctor Appointment Booking App

- A doctor-patient portal allowing online appointment scheduling. (MERN Stack (MongoDB, Express, React, Node.js), Tailwind CSS)
